# Florida's New Child Care Tax Credit: A Win-Win for Businesses and Employees

In the 2024 legislative session, the Florida legislature passed [HB 7073](#), "Taxation," including a provision on the Child Care Tax Credit, originally sponsored by Representative Fiona McFarland, Florida House District 73, and Senator Erin Grall, Florida Senate District 29.

Starting during the 2024 taxable year, Florida's child care tax credit provides businesses with the potential for significant tax savings while supporting employees' childcare needs. This move aims to alleviate the financial burden of childcare through employer-supported care, enabling more parents to participate fully in the workforce. This tax credit offers a huge opportunity to support the workforce of today and tomorrow. According to the Florida Chamber Foundation's Untapped Potential in FL research, **childcare issues are the #1 reason why parents leave their jobs.**

This guide explains how your business can benefit and support Florida's economy by expanding access to quality child care. The Florida Department of Revenue began accepting applications on October 1, 2024, on a first-come, first-served basis.

# Three Ways Employers Can Use Florida's Child Care Tax Credit

## 1

### Startup costs for childcare facilities

- Claim a tax credit of up to 50% of the startup costs for operating an eligible child care facility licensed by the Department of Children and Families and facilities exempt from licensure for employees.
- The maximum credit varies by the size of the business:
  - For businesses with 1-19 employees, the maximum credit is \$1 million.
  - For businesses with 20-250 employees, the maximum credit is \$500,000.
  - For businesses with more than 250 employees, the maximum credit is \$250,000.

## 2

### Monthly childcare enrollment credit

- Claim a tax credit of \$300 per month for each eligible employee's child or grandchild, when the grandparent is the caregiver, enrolled in an employer-operated child care facility licensed by the Department of Children and Families or facility exempt from licensure.
- The maximum credit amount is also based on the size of the business:
  - For businesses with 1-19 employees, the maximum credit is \$50,000.
  - For businesses with 20-250 employees, the maximum credit is \$500,000.
  - For businesses with more than 250 employees, the maximum credit is \$1,000,000.

## 3

### Direct payments for child care

- Businesses making payments directly to an eligible child care facility for the benefit of an employee's child(ren) or grandchild(ren), when the grandparent is the caregiver, can claim a tax credit of 100% of these payments, up to \$3,600 per child per tax year.
- The maximum credit amount follows the same structure:
  - For businesses with 1-19 employees, the maximum credit is \$50,000.
  - For businesses with 20-250 employees, the maximum credit is \$500,000.
  - For businesses with more than 250 employees, the maximum credit is \$1 million.

### Which taxes will the credit apply to?

- Corporate Income Tax
- Insurance Premium Tax
- Gas and Oil Production Tax
- Excise Tax on Liquor, Wine, and Malt Beverages
- Use Tax Due Under a Direct Pay Permit

# Additional Details on the Child Care Tax Credit

- Only those businesses and organizations that have a tax liability under the five mentioned state taxes eligible for the Child Care Tax Credit program are eligible to utilize the tax credit.
- Employers may operate on-site childcare, choose to jointly operate a childcare center with other taxpaying employers, or partner with a nonprofit to operate a childcare center.
- An employer's contribution may go directly to the childcare provider or pay for a portion or all of the child care costs at a facility of the employee's choosing, or employers may contract with an **early learning coalition** to process payments on their behalf.
- The Florida Legislature appropriated \$5 million for the program during the state Fiscal Years 2024-2025, 2025-2026, and 2026-2027.

# Starting Your Application

# Step-by-Step Guide to Starting Your Application

## Step 1: Assess Employee Child Care Needs:

- Utilize our example “Survey to Assess Employee Childcare Needs” contained within this guide (pages 8 and 9) to determine what solution might be best for your employees and the number of employees who would participate in a program that supported their child care needs.

## Step 2: Connect with Your Early Learning Coalition or Preferred Providers in the Area:

- Whether you are planning to construct an on-site child care facility or make payments directly to a child care center in your area, reaching out to your local early learning coalition would be a good place to start conversations about potential partnerships.
- You can also leverage Florida’s Department of Children and Families public search tool to find child care providers in your area with programmatic and contact information for each.

## **Step 3: Information/Items to Gather Before Starting Application:**

- Federal Employer Identification Number (FEIN)
- Average number of employees employed during the taxable or fiscal year for which you are applying, if applicable
- The name and FEIN of the parent company, if you file your Florida corporate income/franchise tax return on a consolidated basis

For more information and specific attachments required for establishing a child care facility (start up costs), operating an eligible child care facility, or making payments to an eligible child care facility visit the Florida Department of Revenue's page and click the dropdown "Applying for a Tax Credit Allocation": <https://floridarevenue.com/taxes/taxesfees/Pages/childcare.aspx>.

## **Step 4: Submitting Your Application:**

- For the quickest way to apply, use the online Multi-Tax Credit Application, where you will create an online account, complete and submit the application, receive a confirmation number with date and time stamp upon submission, and view the status of your application. View other ways to apply [here](#).
- If the taxpayer is required to file and pay electronically, then you must apply online.
- If two or more taxpayers jointly establish and operate an eligible child care facility, or work a nonprofit taxpayer to do so, the taxpayers must file a joint application or the nonprofit can file an application. Joint applications must be submitted in [hardcopy format via Form DR-556000](#).
- The Department of Revenue will send notification of approval or denial for your allocation. NOTE: An approved credit allocation application does not authorize the credit to be claimed! You still must incur the costs in one of the three eligible ways, in the name and for the benefit of an employee before claiming the credit on a tax return.

For more information on claiming a credit or specifics on how this credit applies to your specific tax liability, please visit the Florida Department of Revenue's page and click the appropriate dropdown: <https://floridarevenue.com/taxes/taxesfees/Pages/childcare.aspx>.
